Getting a doTERRA membership and becoming a Wellness Advocate is a great way to start an affordable business and take control of your life

It has been some years since I became a doTERRA wellness advocate and on the whole I have no regrets. So, to confirm, in my opinion, doTERRA is a trusted company that was started in 2008. Their main product line is high quality therapeutic-grade essential oils and related products. My prime objective of becoming an advocate was to promote a healthy lifestyle for me and my family and to achieve a financial freedom. To make this possible the products are sold to the customers via their reps such as myself. So, from the start, there is a element of selling involved in this business.

But, why join doTERRA?

That is a excellent question

The simple answer is that this is a business that you can trust and products that you can believe in. This is the type of company that most of us choose when we embark on a new venture. I can't imagine that anyone would want to join a dishonest business by choice, so I am happy that I choose this company over any other.

What is a doTERRA membership?

"The most important aspect of joining doTERRA is who you join".

When you have a membership, you are able to buy their products at the most affordable price. This comes with other benefits such as training and education in the uses of essential oils.

The best way to see it, is as a wholesale warehouse where you pay a fee and get a percentage off all the products in the store. With doTERRA it is very similar. In this case the fee is only 35\$ (20€ / £20) for the first year and then a nominal yearly fee which includes a bottle of peppermint oil. The fact is, the membership will give you massive discounts on top of the 25% off as a wholesale member.

The most important aspect of joining doTERRA is who you join, because this will be the difference between success and failure in your business. So, consider carefully what you are looking for in an enroller and mentor. Even though it may sound great working with a friend, relationships can become irretrievably damaged. So, if you care about your friend, think twice before you join them in a business.

Once you have signed up and created your membership, you will be placed under your enroller and later (14 days) under a sponsor. Your position in your enroller's team will depend on whether you reach out to them and become active in your business and training. If your enroller sees you as a leader you are likely to be placed in a stronger position in his or her team.

Your enroller or sponsor and in many respects your upline are the people to reach out to in the early stages of your business. They are there to give you help and advise, so feel free to bother them as much as you like. The information they can offer you will be vital to your success, so if you are serious about your business engage with your enroller.

What type of training can my enroller offer?

An experienced wellness advocate will be able to guide you in essential oil uses, the business plan and even how to successfully market your business. If you are reading this webpage and join here, you are likely to be trained by me. However, your training is your responsibility, so it doesn't mean that your mentor will chase you around. Their role is to help and support in addition to doTERRA's online training. doTERRA has all the training material you will need to be successful, it is just about your own willingness to act and learn. To join this team, click on the enroll today link below.

Note: It is important to know that trying to enroll without a consultant will create a "orphan" account. This will firstly mean you will have no help or support from anyone. In addition, as an orphan you will be placed with someone else anyway. In that case, you may be lucky and get a good consultant or you may not. So, if you are serious about being successful, I would encourage you to enroll with an experienced, knowledgeable and most importantly active member. Your business is going to count on it.

What are the benefits of having a doTERRA membership?

Membership benefits list:

- The membership fee is only 35\$ (20€ / £20)
- Our membership team has a global reach, so you are never alone
- The main method for selling their product is direct sales
- Anyone can get a membership, because you can earn while you learn
- They offer a unlimited earning potential to all of their distributors.
- They have a high retention rate (over 65%)
- They offers 25% off all their products for Wellness Advocates / distributors
- They enrollment includes a FREE webshop and back office to market their business
- Great leadership and team support via all mediums
- Finally, there is no silly monthly membership fee to stress about every month
- When I join can I start earning straight away?

When I join can I start earning straight away?

Another, great question!

And the answer is YES.

We all want to make money fast when we start a new business. To make this possible, a new wellness advocate can purchase products at wholesale. This allows you to start selling oils to your customers at retail and earning 25% on every product sold. However, selling directly to your customer is not the only way to make money. As a part of the membership you can start selling online via your personal webshop. Selling online is a very easy and profitable method of advancing your business. The customer simply arrives at your membership webshop and purchases their products without any fuss. The selling process has never been so easy.

When I have joined doTERRA, do I have to work on my business full time?

The simple answer is NO!

In reality, most people work very part-time or just purchase products for personal use. As much as 85% of the membership work either very part-time by running a few classes and by selling to family and friends. They will earn no more than a few hundred dollars or euros a month. These reps made a decision from the start to have a very low key selling business. They are happy with the products and the amount of money they earn, because they can seamlessly integrate it into their family and personal lives.

If this sound like you and the amount of commitment you are willing and able to commit to, you are very welcome. Click on the enrollment button below and get started today.
